HALO

Description:

All around you

The HALO seating system allows you to mix and match different backrest elements to create a variety of seating configurations, ranging from a single-seat chair, a public seating system or a three-seat sofa. The main feature is a very large backrest – reminiscent of a saint's halo – that can provide additional comfort, but also creates privacy and improves acoustics without having to shut off the world entirely.

Year of design: 2015

Design: Skrivo

We are a Milan-based design consultancy that specialises in furniture and lighting design and works with manufacturers across Europe. In our projects we always try to consider the available manufacturing methods, and especially the materials. We constantly research new materials in order to create innovative products that achieve the perfect balance between form and function. The studio was founded in 2011 by the Croatian/Irish product designer Stefan Krivokapic.
