PROSTE MODUŁY

BLOCK'S to system oparty na module i jego wielokrotności, dzięki czemu forma zawsze pozostaje ta sama. Zmieniają się tylko wymiary i funkcjonalności modułów. Łatwość zestawiania elementów – tworzenia całych układów BLOCK'S wynika z zastosowania symetrycznej, stalowej konstrukcji nośnej. Proste moduły BLOCK'S dają wiele możliwości aranżacyjnych.

Simple modules

BLOCK'S is a system based on a module and its multiples, thanks to which the form always remains the same. Only the dimensions and functionalities of the modules change. The ease of combining elements - creating entire BLOCK'S systems results from the use of a symmetrical, steel supporting structure. Simple BLOCK'S modules offer many arrangement possibilities.

Einfache Module

BLOCK'S ist ein System, das auf einem Modul und seinen Vielfachen basiert, wodurch die Form immer gleich bleibt. Lediglich die Abmessungen und Funktionalitäten der Module ändern sich. Die Leichtigkeit, Elemente zu kombinieren und ganze BLOCK'S-Systeme zu schaffen, resultiert aus der Verwendung einer symmetrischen Stahltragstruktur. Die einfache Module von BLOCK'S bieten viele Gestaltungsmöglichkeiten.

PODZIAŁY, KTÓRE ŁĄCZĄ

BLOCK'S dzięki swojej modułowej jednorodności tworzy wspólny mianownik w pomieszczeniach, w których wydziela nowe obszary. Przestrzenie przenikają się aktywnie oddziałując na siebie. Taki podział łączy, nie zamyka a otwiera.

The divisions, that connects

BLOCK'S, thanks to its modular uniformity, creates a common denominator in rooms where it separates new areas. The spaces interpenetrate actively interacting with each other. Such a division connects, does not close, but opens up.

Die Aufteilung, die verbindet

BLOCK'S schafft durch seine modulare Einheitlichkeit einen gemeinsamen Nenner in Räumen, in denen es neue Bereiche trennt. Die Räume durchdringen sich aktiv miteinander interagierend. Eine solche Teilung verbindet, schließt nicht, sondern öffnet.

ARANŻUJ RYTMICZNE REGAŁY KOŁORAMI I FAKTURAMI

**Arrange modules rhythmically
with colors and textures**

**Anordne Module rhythmisch
mit Farben und Texturen**

LINIA – BLOCK'S

Moduły BLOCK'S można łączyć ze sobą tworząc linię zabudowy, która z jednego większego obszaru wydzieli dwa. Moduły można też zestawiać dwustronnie dzięki symetrycznej konstrukcji nośnej. Dodatkowo BLOCK'S pozwala na łączenie modułów różnej szerokości i wysokości.

Line – BLOCK'S

BLOCK'S modules can be combined with each other to form a building line that will separate two from one larger area. Modules can also be arranged on both sides thanks to the symmetrical supporting structure. In addition, BLOCK'S allows you to connect modules of different width and height.

Linie – BLOCK'S

Die Module von BLOCK'S können miteinander kombiniert werden, um eine Möbellinie zu bilden, die zwei von einem größeren Bereich trennt. Durch die symmetrische Tragstruktur können Module auch beidseitig angeordnet werden. Darüber hinaus erlauben BLOCK'S Module unterschiedlicher Breite und Höhe verbinden.
