#### **General information**

**Product** 

RH Support 4501

**General Information** 

The Norwegian EPD Foundation
Post Box 5250 Majorstuen, 0303 Oslo

Phone: +4723088000 e-mail: post@epd-norge.no

**Declaration number:** 

NEPD-1242-394-EN

This declaration is based on Product Category Rules:

PCR for Seating Solution, NPCR 003 extended version 2013, in accordance with recommendations by the Norwegian EPD Foundation. See [3]

**Declared unit:** 

One office chair: RH support 4501

Declared unit with option:

No option

**Functional unit:** 

Production of one seating solution provided and maintained for a period of 15 years.

This EPD has been worked out by:

The declaration has been developed using Furniture EPD Tool Version 1.2.1, Approval: NEPDT04 Company specific data collected and registered by:

Laura Fouilland

Company specific data audited by:

**Carl Peter Aaser** 

Verification:

Independent verification of data, other environmental information and EPD has been carried out in accordance with ISO14024, 8.1.3. and 8.1.4. See [2]

Manufacturer

Flokk AB

Place of production:

Vallgatan 1, 571 23 Nässjö, Sweden

Management system:

ISO 14001, Certificate No.151496-2014-AE-NOR-NA From the accredited unit: DNV Certification As, Norway. ISO 9001, Certificate No.151495-2014-AQ-NOR-NA From the accredited unit: DNV Certification As, Norway.

Org. No:

No 928 902 749

Issue date:

25.01.2017

Valid to:

25.01.2022

Comparability:

EPDs from programmes other than the Norwegian EPD Foundation may not be comparable

Year of study:

2016

Approved

Håkon Hauan Managing Director of EPD-Norway

Key environmental indicators for RH Support 4501	Unit	Cradle to Gate A1-A3
Global warming	kg CO <sub>2</sub>	39,3
Total energy use	MJ	663,9
Amount of recycled materials	%	34 %

## **Product**

## **Product Description and Application**

The RH Support range is designed for people who need the flexibility of easily switching between sitting and standing. They come in five different specifications and some of the range includes an ESD version. The RH Support range offers infinite flexibility in seat and backrest adjustments and its wide range of accessories make it a very adaptable chair for a diversity of individual needs.

RH Support 4501 that is studied in this declaration comes as standard with a star footbase in black lacquered aluminium and glides.

#### **Technical Data**

Total Weight: 10,7kg (packaging excluded) GREENGUARD certified

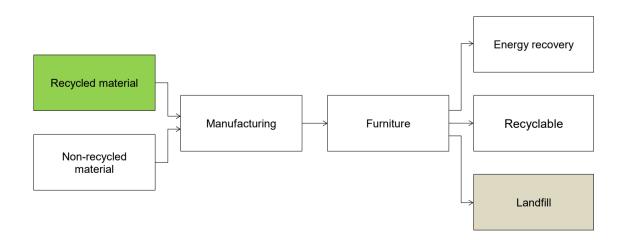

**Market** Worldwide

**Reference Service Life** 

15 years

Product manufactured from 34% recycled material (packaging included) At end of life product contains 90% recyclable material

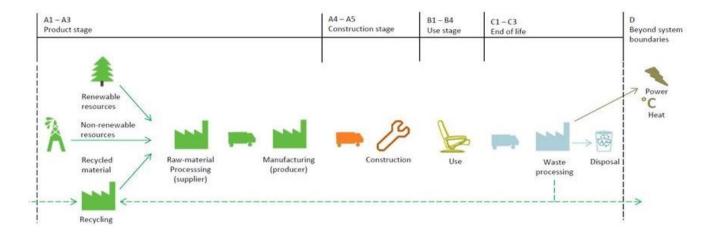

## LCA: Calculation rules

#### **Declared unit:**

Production of one seating solution provided and maintained for a period of 15 years.

#### System boundary:

Life cycle stages included are described in figure and through the corresponding letter and number designations in the declaration (see figure below)

#### Data quality:

Specific manufacturing data from 2014 are used. Data from Ecoinvent 3.0.1. and Østfoldforskning databases are used as the basis for raw materials and energy carrier production. See [5].

#### **Cut-off criteria:**

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows that are included with very small amounts (<1%) are not included. This cut-off rule does not apply for hazardous materials and substances.

#### Allocation:

Where virgin materials are used, emissions and energy consumption connected with extraction and production are included.

Where recycled materials are used in the product, emissions and energy consumption related to the recycling process are included.

Emissions from incineration are allocated to the product system that uses the recovered energy.

Emissions from incineration of waste are allocated to the product system that uses the recovered energy.

## LCA: Scenarios and additional technical information

Transportation to an average customer in Copenhagen is 360 km (A4: average European lorry > 32 tonnes)

The use stage is represented by a scenario and includes vacuum cleaning of textile once a month. The PCR [3] does not provide detailed guidelines for what should be included in the use stage. In the end of life stage, the transport distance for waste to waste processing is 72 km (C1). The reuse, recovery and recycling stage is beyond the system boundaries (D).

It is assumed that the solution is dismantled and the materials recycled or combusted according to the general Norwegian treatment of industrial waste (see the table below). The transport distance to reuse, recovery or recycling is varying for each material, but the average distance is 373 km. The vehicles used and associated data are described in detail in [4].

	Material recovery	Energy recovery	Disposal
Aluminium	70,1 %	0,0 %	30 %
Steel	70,1 %	0,0 %	30 %
Plastic	64,3 %	30,8 %	5 %
Cardboard	94,5 %	5,5 %	0 %

## LCA: Results

## **Specific Norwegian requirements**

#### **Electricity**

Electricity purchased by Flokk for its production sites in Sweden and Norway comes with a guarantee of origin for Nordic Hydropower.

Therefore the electricity mix used in this EPD is: Energy, electricity, hydro, Nordic average.

This gives following greenhouse gas emissions: 2,8 g CO2-eqv/kWh

#### **Dangerous Substances**

None of the following substances have been added to the product: Substances on the Candidate list of substances of very high concern (published in accordance with Article 59(10) of the REACH Regulation), substances on the Norwegian Priority list and substances that lead to the product being classified as hazardous waste. The chemical content of the product complies with regulatory levels as given in the Norwegian Product Regulations.

#### Indoor environment

Greenquard certificate

#### Additional environmental information

Key environmental indicators for variants in the RH Support collection: Cradle to Gate analyse from A1 to A3

Variant model number	Global warming (kg CO <sub>2</sub> )	Total energy use (MJ)	Share of recycled material in product
RH Support 4502	30,7	538,2	39 %
RH Support 4503	28,9	501,1	44 %
RH Support 4511	38,7	652,9	35 %
RH Support 4512	30,1	527,3	40 %
RH Support 4513	28,3	490,1	44 %
RH Support 4521	38,6	654,4	34 %
RH Support 4522	30,0	528,7	40 %
RH Support 4523	28,2	491,5	44 %
RH Support 4545	32,3	565,8	38 %
